Chance for Life Nepal e.V.

„*Chance for Life Nepal e.V.*“ is an registered non-profit organization, which promotes education for needy and underprivileged children in Nepal, hence preventing child labour.

Support also needy and underprivileged children.

„There is only one thing that is more expensive in the long run than education: no education“
Max Plank

Our OBJECTIVES:

- to enable underprivileged children access to education
- to combat child labour through education

Education for children is not a privilege but a right.

You can support education for needy and under-privileged children by:

Take a personal sponsorship.

- You will receive a picture of your godchild, and you'll be informed annually on the child's development.
- Take an anonymous sponsorship which is left to the Board, to use your donation in accordance with the statutes.

Our sponsorships:

Reason for a sponsorship:

To prevent child labor through the sponsorship.

To give my godchild the right to education

Children are the capital of this world and the future of tomorrow.

Children in Nepal work in agriculture, as domestic servants, in textile and carpet production, in quarries and on construction sites.

Many girls are sold and coerced into forced prostitution in the big cities in Nepal or India.

„*Chance for Life Nepal e.V.*“ works to prevent such malpractices so that the children are not deprived of their future.
